Ellen MacArthur Foundation

Trainee Front-End Developer

Based on the Isle of Wight, UK

The Ellen MacArthur Foundation has an exciting opportunity for someone to join our Digital team as a trainee front-end developer. You will work within the Digital team, creating and maintaining the Ellen MacArthur Foundation's websites and digital platforms.

What we do:

The Ellen MacArthur Foundation is a charity with the mission to accelerate the transition to a circular economy. The Foundation works across five interlinking areas:

- Education & learning – inspiring learners to re-think the future through the circular economy framework
- Business & government – catalysing circular innovation and creating the conditions for it to scale
- Insight & analysis – providing robust evidence about the benefits and implications of the transition
- Systemic Initiatives - transforming key material flows to scale the circular economy globally
- Communications - engaging a global audience around the circular economy

Role & Responsibilities:

The successful candidate will carry out the following activities within the Digital Team:

- **Front End Development.** Building and maintaining the front-end interfaces for our various software systems, including websites, apps and digital platforms.

- **Technical Support.** Working with content owners and stakeholders to ensure that they understand how to use our software to meet their needs.

- **Testing.** Carrying out functional and user testing of our systems and of new features as they are developed, to ensure the high quality of our products.

- **Agile Development.** Collaborating with other developers, designers and UX researchers as part of an agile team, to provide digital solutions for the Ellen MacArthur Foundation.

Person specification

- Qualified to degree level in Computer Science or related studies, with a good

academic record in relevant disciplines.

- Knowledge and experience writing HTML, CSS and JavaScript.

- Self-driven with a high level of motivation. Demonstrating a willingness to learn.

- Experience of the following would be desirable but not required:
    - Git or other version control systems.
    - Modern Web Development practices.
    - PHP or Python programming languages

- Good communication skills: the ability to interact effectively at all levels of an organisation and to contribute proactively to problem solving in meetings and workshops.

- Excellent organisational skills

***Please apply with CV, covering letter to: Barbara Calland
(barbara@ellenmacarthurfoundation.org)
Ellen MacArthur Foundation, 42 Medina Road, Cowes, Isle of Wight, PO31 7BX***

Desired starting date: September 1st 2018
Closing date for applications: July 16th 2018
Location: Cowes, Isle of Wight
