BIBLIOGRAPHY

This short bibliography accompanies the document entitled *Circular economy and curriculum development in higher education - briefing notes, support and illustrative resources*. Developed by the Ellen MacArthur Foundation and our key higher education contacts, both documents provide guidance, resources, insights and relevant links to support higher education institutions that look to develop circular economy teaching and learning capacity. Please help us make this bibliography more useful and relevant by giving us your feedback and ideas for further development. This will help us make improvements that will benefit everyone in the Foundation's universities network.

GENERAL

Blomsma, F. and Brennan, G. (2017) The Emergence of Circular Economy - A New Framing Around Prolonging Resource Productivity *Journal of Industrial Ecology* 21 p 603-614

Boulding, K. (1985) *The world as a Total System*. Sage
